

Professional Learning and Development Program

Leap into Literacy for Children with Hearing Loss

Focus

Literacy skills are fundamental for formal education and are crucial for success across a lifespan. Literacy learning requires a systematic well designed instructional approach, and children with hearing loss highly benefit from specific strategies to support and address their unique learning needs.

Course details

- Two hour online interactive course suited for professionals working with young children and primary school students with hearing loss.
- Multiple opportunities for group discussion of key concepts, case examples and application of techniques.
- Participants will require access a computer/tablet with video and audio capabilities in order to join and interact throughout the course.

Learning Outcomes

Participants of this workshop will:

- Understand the crucial components of literacy development
- Explore the impact of hearing loss on literacy development
- Develop strategies to support literacy development in children with hearing loss
- Explore activities to strengthen pre-literacy and literacy skills

Accreditation

Completing "Leap into Literacy for Children with Hearing Loss" can contribute 2 hours of NSW Education Standards Authority (NESA) Elective PD
